

MUT-11 nic2 mt-

Cat. No. ALS-01228

Lot. No. (See product label)

Subcategory

Mutants

Description

Requires nicotinamide for growth; yeast extract will suffice. This stock should be scorable as sensitive to 3-acetyl pyridine. It has been shown that the NIC2 locus encodes quinolinate phosphoribosyl transferase.

Species

Chlamydomonas

Locus

NIC2 [QPT1]

Phenotype

Requires nicotinamide
