

# MUT-1025 pf2 mt+

Cat. No. ALS-01595

Lot. No. (See product label)

---

## Subcategory

Mutants

## Description

Flagella in this mutant move erratically; suspensions typically contain some swimming cells. The PF2 locus encodes component DRC4 of the dynein regulatory complex.

## Species

Chlamydomonas

## Locus

PF2

## Chromosome

11

## Phenotype

Impaired motility
