

MUT-1460 *C. eugametos* nr-1 male

Cat. No. ALS-01827

Lot. No. (See product label)

Subcategory

Mutants

Description

This mutant, which is resistant to neamine, was isolated in cells grown on 2-amino-3-phenylbutanoic acid (and is probably resistant to that compound also) prior to plating on neamine. It shows Mendelian inheritance (i.e. is in a gene encoded in nuclear DNA).

Species

Chlamydomonas
