

# MUT-1725 ac18 mt-

Cat. No. ALS-02002

Lot. No. (See product label)

---

## Subcategory

Mutants

## Description

From MUT-1024 pf1 x MUT-1250 ac18 (no longer in the collection; came from the same cross as MUT-1249). This was recovered as a cleaner acetate-requiring strain from a mapping cross of the original ac18 stock. Please see MUT-1249 for more information on the ac18 mutation.

## Species

Chlamydomonas

## Locus

AC18

## Chromosome

5

## Phenotype

Requires acetate
