

# MUT-2230 oda2 mt+

Cat. No. ALS-02287

Lot. No. (See product label)

---

## Subcategory

Mutants

## Description

The ODA2 locus corresponds to the gene encoding the outer arm dynein gamma heavy chain. The pf28 and sup-pf2 mutants are also alleles at this locus.

## Species

Chlamydomonas

## Locus

ODA2 [DHC15]

## Chromosome

11

## Phenotype

Impaired motility
