

# MUT-2846 cw15 arg7 pf18 mt-

*Cat. No.* ALS-02579

*Lot. No.* (See product label)

---

## Subcategory

Mutants

## Description

From a cross of MUT-1036 pf18 x MUT-1618 cw15 arg7. This strain and MUT-2845 were created in response to a need for an immobile arg7 strain in a cell-wall deficient background, for use in a transformation experiment.

## Species

Chlamydomonas

## Locus

ARG7, PF18

## Chromosome

1,2

## Phenotype

Requires arginine; wall deficient; motility impaired
