

Resveratrol

Cat. No. HPE-005

type

High Purity Extract

CAS NO.

501-36-0

Molecular Formula

$C_{14}H_{12}O_3$

Molecular Weight

228.24

Specification

20 mg/pc

Purity

HPLC \geq 98%

Melting Point

253-255 °C

Appearance

Colorless needle-like crystals

Solubility

Insoluble in water, easily soluble in ethanol, acetone, and other organic solvents.

Identification Method

NMR; MS

Supply

Large quantity in stock

Expiration Date

2 years

Use

Used for content determination, identification, pharmacological experiments, etc.
