

# Goat anti-Hamster IgG (H&L), HRP conjugated

Cat. No. APA-GA-091

Lot. No. (See product label)

---

## Product Name

Goat anti-Hamster IgG (H&L), HRP conjugated

## Host

Goat

## Immunogen

Purified syrian hamster IgG, whole molecule,

## Background

Goat anti-Hamster IgG (H&L) is a secondary antibody conjugated to HRP, which binds to hamster IgG (H&L) in immunological assays.

## Format

Lyophilized

## Clonality

Polyclonal

## Purity

Immunogen affinity purified goat IgG.

## Quantity

1 mg

## Reactivity

Hamster IgG (H&L)

## Confirmed reactivity

Heavy chains on hamster IgG and light chains on all hamster immunoglobulins

## Not reactive in

Non-immunoglobulin hamster serum proteins

## Reconstitution

For reconstitution add 1.1 ml of sterile water, Let it stand 30 minutes at room temperature to dissolve, Centrifugate to remove any particulates, Prepare fresh working dilutions daily

## Tested applications

ELISA (ELISA), Immunohistochemistry (IHC), Western blot (WB)

## Recommended dilution

The optimal working dilution should be determined by the investigator

## Storage

Store freeze-dried powder at 2-8 °C. For long term storage after reconstitution, dilute with 50% glycerol and store at -20 °C as a liquid.
