

# pCMV-tdTomato

Cat. No. MEVs-530

Lot. No. (See product label)

---

## Product Name

pCMV-tdTomato

## Copy Number

High copy

## Length

5392 bp

## Promoter

CMV

## Cloning Method

MCS, Restriction endonucleases

## Cloned Strain(s)

DH5 $\alpha$ , HB101

## Host cells (lines)

Conventional cell lines, 293, CV-1, CHO, etc.

## Stable

Transient or stable expression

## Selectable Marker

Neomycin

## Constitutive/Inducible

Constitutive

## Bacterial Resistance(s)

Kanamycin

## Viral/Non-Viral

Nonviral

## Plasmid Type

Mammalian cell expression vectors, Fluorescent reporting vectors
