

Silybin

Cat. No. MTE-002

Lot. No. (See product label)

Product Name

Silybin

Synonym

Legalon
Silibin
Silliver

Botanical Source

Silybum marianum (L.) Gaertn

Part Used

Seeds

Identification

HPLC

Package

25 kg/paper drum

Form

Powder

Assay

HPLC 70% - HPLC 98%

Product Description

Silibinin is a polyphenolic flavonoid obtained from the seeds of *Silybum marianum*, with silibinin having an antihepatotoxic effect, antioxidant, antiinflammatory, and anticarcinogenic properties.

Appearance

Off-white fine powder, bitter.

Applications

Medicinal, healthcare products

Main Functions

Silymarin may act as an antioxidant, protecting hepatic cells from chemotherapy-related free radical damage. This agent may also promote the growth of new hepatic cells.

Quality Guarantee Period

3 years

Storage

Keep in a closed, light-proof and dry place. Avoid direct sunlight.
