

Soluble cyclodextrin inclusion compound Cinnamaldehyde

Cat. No. CDP-014

Lot. No. (See product label)

Product Name

Soluble cyclodextrin inclusion compound Cinnamaldehyde

Appearance

White powder

Product Description

The soluble cyclodextrin inclusion compound of Cinnamaldehyde can solve the problems of cinnamaldehyde being difficult to dissolve in water, volatile, and easy to oxidize. It can also significantly improve the solubility of cinnamaldehyde in water. This inclusion complex has a slow-release bacteriostatic effect and good water solubility.
