

L-Cystine, Food Grade

Cat. No. FAP-010

Lot. No. (See product label)

Product Name

L-Cystine, Food Grade

Molecular Formula

C₆H₁₂N₂O₄S₂

Molecular Weight

240.29

Appearance

White hexagonal tabular crystal or white crystalline powder.

Solubility

Solubility soluble in dilute acid and alkali solution, extremely difficult to dissolve in water, insoluble in ethanol.

Application

Used in medicine, food, cosmetics and other industries.

FOR RESEARCH OR FURTHER MANUFACTURING USE ONLY
