

Citrinin Toxin ELISA Kit

Cat. No. MEP-013

Lot. No. (See product label)

Product Name

Citrinin Toxin ELISA Kit

Tests

48/96 T

LOQ (Limit of Quantitation)

6 µg/kg

LOD (Limit of Detection)

1.8 µg/kg

Total Incubation Time

45 min (30/15 min)

Assay Principle

Indirect Competitive ELISA

Storage Temperature

2-8°C

Product Introduction

Citrinin is a mycotoxin produced by several species of the genera *Aspergillus*, *Penicillium* and *Monascus*. It is usually found in cereals, rice, and health products, is a major threat to human being and animals.

Application

For qualitative and quantitative analysis of toxin residues in apple juice and wine.

FOR RESEARCH OR FURTHER MANUFACTURING USE ONLY
