

Oregano Oil

Cat. No. NOP-008

Lot. No. (See product label)

Product Name

Oregano Oil

Botanical Source

Origanum vulgare

Appearance

Colorless or light yellow oily liquid.

Plant Part Used

Aerial parts

Description

Oregano oil is a potent natural remedy extracted from the Oregano plant (*Origanum vulgare*). It is known for its extensive medicinal properties, attributed to its rich concentration of bioactive compounds.

Primary constituents of Oregano oil include thymol, carvacrol. Thymol possesses powerful antibacterial and antifungal properties, while carvacrol acts as a natural antioxidant and anti-inflammatory agent.

Function

Antibacterial, antioxidant, immunity enhancement.
