

Heparin Sodium

Cat. No. HSP-001

Lot. No. (See product label)

Product Name

Heparin Sodium

Specification

Ch.P/EP/USP/BP/EP6/Raw product

Description

This product is a white or off-white powder that is odorless, tasteless, and highly hygroscopic. It is easily soluble in water but insoluble in organic solvents such as ethanol and acetone.

Introduction

It is a polysaccharide biochemical extracted from the porcine intestinal mucosa. Heparin has strong anticoagulant and antithrombotic functions. It is mainly used for anticoagulation and antithrombosis treatment in clinical practice.

Indications

It is used for the prevention and treatment of thrombosis or embolic diseases, disseminated intravascular coagulation (DIC) caused by various reasons, and also used in the operations of hemodialysis, extracorporeal circulation, and the anticoagulation treatment of certain blood specimens or instruments.
