

Olive Leaf Extract

Cat. No. SEP-001

Lot. No. (See product label)

Product Name

Olive Leaf Extract

Source

Leaves of olive(Olea europaea L.)

Specifications

Spec. 1. Oleuropein: $\geq 40\%$ (HPLC).

Spec. 2. Hydroxytyrosol: $\geq 40\%$ (HPLC).

Appearance

Brown powder

Product Advantages

Complies with Chinese Pharmacopoeia (CP), United States Pharmacopoeia (USP), and European Pharmacopoeia (EP).

Non-GMO, non-irradiated, allergen-free, BSE/TSE-free, and ethylene oxide-free.

Solubility

Soluble in water, ethanol.

Application

The daily dose of oleuropein is 100–400 mg.

When combined with vitamin C, it can increase the bioavailability by 15%. It is suitable for functional beverages, energy bars, etc.

The concentration is 0.1%-1.2%, used in anti aging, moisturizing, and sun protection formulations.

A single dose is 50–150 mg (1–2 times a day). Zinc or fish oil is added to enhance antioxidant and cardiovascular protection.

Packaging

Inner packaging. Double-layer plastic bag.

Outer packaging. Solid paper drum, net weight 25 kilograms.

Storage Conditions

Sealed, in a cool, dry, and light - protected environment (below 25°C, humidity $\leq 45\%$ RH).

Shelf Life

24 months under the specified storage conditions.

FOR RESEARCH OR FURTHER MANUFACTURING USE ONLY
