Product Description

Our product is a specially formulated blend designed to create delicious soft candies, enriched with the unique nutritional benefits of konjac. This product seamlessly combines konjac with soft candies, delivering a delightful taste in every bite and enhancing the overall quality of the candy.

Features

This composite powder features a unique formulation ideal for producing soft candies with a rich, satisfying texture.

The product prioritizes health, offering a low-calorie option for those mindful of their dietary choices.

Application

Gummy production. This composite powder is ideal for creating a variety of gummies, from fruit-flavored candies to innovative blends, providing a versatile foundation for your candy creations.

Innovative desserts. Add to puddings, jellies, and other innovative sweets to elevate your dessert offerings.

Health-conscious. Cater to health-conscious consumers, delivering a satisfying and wholesome snacking experience.

Health Benefits

Dietary fiber enrichment. Konjac is renowned for its high dietary fiber content, which promotes digestive health and helps create a feeling of fullness.

Guilt-free. This product enables the creation of guilt-free gummies, allowing consumers to enjoy sweet treats while maintaining their health goals.

Shelf Life

2 years
