

Ceramides NP/AP/EOP/AS/NS/NG

Cat. No. CAP-002

Lot. No. (See product label)

Product Name

Ceramides NP/AP/EOP/AS/NS/NG

CAS No.

100403-19-8

Product Description

Ceramides NP/AP/EOP/AS/NS/NG are common types of ceramides used in skincare to strengthen the skin's protective barrier, improve hydration, and support skin health.

Product Effect

Strengthen the skin barrier. Prevent moisture loss and shield skin from environmental irritants.
Boost hydration. By limiting transepidermal water loss, they maintain skin softness and elasticity.
Enhance skin resilience. Help skin better withstand external factors like pollution and UV damage.
Promote regeneration—aid in accelerating skin renewal, particularly beneficial for dry or slightly damaged skin.
