

Squalane

Cat. No. CAP-005

Lot. No. (See product label)

Product Name

Squalane

CAS No.

111-01-3

Product Description

Squalane is a stable form of squalene used as a moisturizer and emollient in skincare that hydrates skin and prevents moisture loss without feeling greasy.

Product Effect

Moisturizing. Provides lightweight hydration and prevents moisture loss.

Skin elasticity. Helps maintain skin elasticity, reducing the appearance of fine lines and wrinkles.

Antioxidant protection. Shields skin from oxidative damage caused by UV rays and other sources.

Oil regulation. Helps balance sebum production.

Molecular Formula

C₃₀H₆₂
