

AKD Emulsion

Cat. No. PCA-007

Lot. No. (See product label)

Product Name

AKD Emulsion

Appearance

White emulsion

Content

15%±1.0%

PH Value

2.0–4.0

Ionicity

Cationic

Product Introduction

AKD emulsion is a neutral sizing agent widely used in the papermaking process. Neutral papermaking can increase the strength of paper, reduce the phenomenon of powder and lint, and improve the printability of paper.

Product Applications

This product is suitable for the production of various types of cultural paper, cardboard, newsprint, fruit bag paper, and packaging paper. It is particularly suitable for the manufacture of paper made from wood pulp or reed pulp that requires sizing.

Shelf Life

4 months (4°C–25°C)

Packaging

200 kg or 1,000 kg plastic drums.

Storage

This product should be stored in a dry room. Avoid exposure to light, direct sunlight, and freezing temperatures. The storage temperature should be between 4°C and 25°C.
