

Paper Making Antifoam

Cat. No. PCA-009

Lot. No. (See product label)

Product Name

Paper Making Antifoam

Appearance

White to light yellow emulsion.

Solid Content

29%±1.0%

PH Value

6.0–8.0

Product Introduction

This product is a fatty alcohol antifoam, which is suitable at 25°C-40°C. This product can quickly remove arising foam from wheat straw, straw, reed, waste paper, and other surfactants in the paper-making industry.

Product Features

This product is durable, non-toxic, and odourless, and has no late pollution. It can effectively restrain pulp overflow and improve paper quality.

Product Applications

Paper industry

Shelf Life

6 months (10°C–30°C)

Packaging

Available in 25 kg, 200 kg, or 1,000 kg plastic drums.

Storage

This product should be stored in a dry indoor environment. It must be protected from light, direct sunlight, and freezing. The suitable storage temperature range is 10°C to 30°C.
