

Diethylenetriamine (DETA)

Cat. No. PCA-011

Lot. No. (See product label)

Product Name

Diethylenetriamine (DETA)

CAS NO.

111-40-0

Appearance

Colorless or light yellow liquid.

Assay

≥99.0%

Product Introduction

Diethylenetriamine (DETA) is a yellow, transparent, viscous liquid with hygroscopicity, irritant ammonia odor, flammability, and strong alkalinity. It is corrosive to copper and copper alloys.

Product Features

Due to this product's corrosivity, operators must wear protective masks, corrosion-resistant protective clothing, and rubber gloves. When loading and unloading this product, it should be handled lightly to prevent damage to the packages.

Product Applications

Used as a wet-strength agent in the paper industry.

FOR RESEARCH OR FURTHER MANUFACTURING USE ONLY
