

Rhodococcus fascians PCR Detection Kit (100)

Cat. No. *PDB-154*

Lot. No. (See product label)

Product Name

Rhodococcus fascians PCR Detection Kit (100)

Product Overview

Rhodococcus fascians PCR Detection Kit (100) is designed for the detection of Rhodococcus fascians.

Kit Components

The PCR kit contain a lyophilized Premix (primer/dNTPs) as well as a Positive and Negative Control.

The complete PCR reaction kits contain the PCR set as well as DNA Polymerase, PCR water and reaction buffer mix.

Detection method

PCR
