

Puerarin

Cat. No. EXT-016

Lot. No. (See product label)

Product Name

Puerarin

Product Overview

The product belongs to plant extract.

Form

Brown and yellow powder

Molecular Mass

432.38

Applications

Puerarin can be used to assist in the treatment of coronary heart disease, angina pectoris, myocardial infarction, retinal arterial and venous obstruction, sudden deafness and ischemic cerebrovascular disease, viral myocarditis in children, diabetes, etc.

Synonyms

8-GLUCOSYLDIAIDZEIN; 7-HYDROXY-3-[4-HYDROXYPHENYL]-1-BENZOPYRAN-4-ONE 8-[BETA-D-GLUCOPYRANOSIDE];

Molecular Formula

C₂₁H₂₀O₁₀

CAS

3681-99-0

Content

0.25

Storage

2-8°C

FOR RESEARCH OR FURTHER MANUFACTURING USE ONLY
