

Chrysin

Cat. No. EXT-049

Lot. No. (See product label)

Product Name

Chrysin

Product Overview

The product belongs to plant extract.

Form

Light yellow powder

Molecular Mass

254.24

Solubility

Not soluble in water.

Applications

Synthetic raw materials for medicines such as lowering blood fat, preventing cardiovascular and cerebrovascular diseases, antibacterial and anti-inflammatory.

Molecular Formula

C₁₅H₁₀O₄

EINECS

207-549-7

CAS

480-40-0

Content

0.99

Storage

0-6°C

FOR RESEARCH OR FURTHER MANUFACTURING USE ONLY
