

Xanthophyll

Cat. No. EXT-154

Lot. No. (See product label)

Product Name

Xanthophyll

Product Overview

The product belongs to plant extract.

Form

Crystal with metallic luster

Molecular Mass

568.87

Applications

Used in papermaking, printing and dyeing industries, it can be used for food coloring, and can also be added to poultry feed to increase the yellowness of poultry egg yolk.

Molecular Formula

C₄₀H₅₆O₂

EINECS

204-840-0

CAS

127-40-2

Content

0.05
