

Algae Nutrient Media: F/2

Cat. No. ACMS-003

Lot. No. (See product label)

Product Name

Algae Nutrient Media: F/2

Size

1mL, 15mL, 50mL, 500mL, and 1L available

Product Overview

F/2 is the perfect nutrient media for algae and a widely used general enriched medium for growing algae. The original formulation from Guillard and Ryther (1962) has been slightly modified for growing freshwater and seawater strains of algae. This is a complete media, easy to use, and contains all the necessary trace elements and minerals to grow your algae.
