

Automatic Feeding Machine

Cat. No. FAD-036

Lot. No. (See product label)

Product Name

Automatic Feeding Machine

Product Overview

Feeding machine can be timed, fixed, quantitative, fixed-point and uniform automatic feeding, with labor-saving and time-saving, reduce feed waste and protect the water environment characteristics.

Source

Aquaculture Equipment

Usage

Realize automatic feeding at regular time, frequency, quantity and point.

Power

150 W

Feature

Feeding interval, feeding volume, feeding distance (> 15 m) and feeding area (> 120°) are all adjustable

Applicable Area

667 m²-1500 m²

Applicable Space

Aquaculture ponds

FOR RESEARCH OR FURTHER MANUFACTURING USE ONLY
