

Activated Carbon Filtration Equipment

Cat. No. FAD-038

Lot. No. (See product label)

Product Name

Activated Carbon Filtration Equipment

Product Overview

Activated carbon filtration equipment has the property of selectively adsorbing impurities for water purification.

Source

Aquaculture Equipment

Usage

Filter water to remove most of the colored, tasty and visible impurities to the naked eye.

Feature

Physical filtration, safe and harmless

Applicable Space

Aquaculture ponds

FOR RESEARCH OR FURTHER MANUFACTURING USE ONLY
