

# Spirulina Powder (600 mesh )

Cat. No. SE-015

Lot. No. (See product label)

---

## Product Name

Spirulina Powder (600 mesh )

## Product Overview

Spirulina is a blue-green algae that is high in nutrients and considered one of nature's greatest Superfoods.

## Description

Superfine spirulina is made of spirulina powder through dry airflow pulverization. Its particle size is less than 20um. Compared to spirulina powder (particle size is less than 150um), superfine spirulina is easier to digest and absorb. It smells and tastes better. It also has better dispersibility.

## Shelf Life

24 months

## Product Function

There's many health benefits associated with Spirulina because of the nutrients found in Spirulina such as protein, beta-carotene, antioxidants, phycocyanin, chlorophyll, and other vitamins and minerals. Spirulina reduces oxidative stress, boosts your immune system, and improves circulation.
