

Natural Blue Pigment Phycocyanin Powder

Cat. No. SE-059

Lot. No. (See product label)

Product Name

Natural Blue Pigment Phycocyanin Powder

Appearance

Blue fine powder

Assay Method

UV

Applications

1. As medicines raw materials for anti-inflammatory and regulating menstruation, it is mainly used in pharmaceutical field;
2. As products of health products, it is widely used in the field of health care products;
3. As pigments, food additives of seasoning, it is mainly used in food field.

Advantages

1. Free sample(10-20g or enough to detection) and Unconditional assume response
2. 100% Natural product, without any synthesize ingredient
3. Manufacturer direct supply, provide OEM, R&D service
4. Competitive price

Module Contents

Phycocyanin

Shelf Life

24 months

Packing

- 1 kg packag in a plastic bag, and with aluminum foil bag outside.
10 kg or 25 kg in double plastic bag with a cardboard drum outside.

Product Function

1. Phycocyanin is a water-soluble pigment, non-toxic, pure, lovely clear, can be used as a food coloring agent, cosmetic additives.
2. Phycocyanin is a powerful anti-oxidant & anti-hydroxyl radical, protect cells against DNA damage.
3. Phycocyanin has powerful anti-inflammatory properties.
4. Phycocyanin is a strong chelating power – to leach out heavy metals (mercury and lead) and toxins, it protects and improves liver function.
