Product overview

Dehydrated Zucchini Powder can be used in a wide variety of applications including fast food, baking, seasoning blends, salads, sauces, soups and stews, pasta products, chips and snacks, cheese and dairy products, meats and sausages, ready meals, pet food products and more. Steam sterilization or Irradiation Treatment is available for microbiological reduction.

Description

Zucchini, or courgette, is a summer squash in the Cucurbitaceae plant family, alongside melons, spaghetti squash, and cucumbers.

It can grow to more than 3.2 feet (1 meter) in length but is usually harvested when still immature — typically measuring under 8 inches (20 cm).

Although zucchini is often considered a vegetable, it is botanically classified as a fruit. It occurs in several varieties, which range in color from deep yellow to dark green.

Specification

100% pure zucchini

Appearance

Flakes, granules, substantially free from any foreign matters

Active ingredient

100% Pure zucchini

Application

Health-care Products, Food, Beverages, Pharmaceutical, and Feeds

Features

No Additives, No Preservatives, No GMOs, No Artificial Colors

Shelf life

3 years

Storage

Keep in a cool, dry, and clean place, Protect from moisture and direct light.

FOR RESEARCH OR FURTHER MANUFACTURING USE ONLY
