

Ziziphus Jujuba Powder

Cat. No. PAE-009

Lot. No. (See product label)

Product Name

Ziziphus Jujuba Powder

Package

25 kg/drum

Description

Ziziphus Jujuba Powder is made from the fruits of jujube (*'dʒuːdʒuːb/*), sometimes Jujuba, known by the scientific name *Ziziphus jujuba* and also called red date, Chinese date, and Chinese jujube, which is a species in the genus *Ziziphus* in the buckthorn family *Rhamnaceae*.

The fruits are egg-shaped and orange-red or brown in color, with edible acid pulp and hard central stone. The fruit has two varieties – the wild one called Jharberi, which is small and round, while cultivated fruit is oval, fleshy, and more prominent in size. It is sweeter as compared to the smaller kind. The fruit is cooling, digestible, tonic,

Part used

Fruit

Specification

10%-100%Purity, or 5:1, 10:1, 20:1, 2%, 10% Jujuboside

Appearance

Yellowish Brown Powder

Active ingredient

Saponins, Ziziphin, flavonoids which include Kaempferol 3-O-rutinoside, quercetine 3-O-robinobioside, quercetine 3-O-rutinoside, terpenoids such as colubrinic acid and alipholic acid are the active principles that are present in the leaves and fruits of *Ziziphus jujuba*

Application

Health-care Products, Food, Beverages, Pharmaceutical, Cosmetics, and Dietary Supplements

Features
