

Walnut Peptide

Cat. No. PAE-066

Lot. No. (See product label)

Product Name

Walnut Peptide

Package

25 kg/drum

Product overview

Walnut peptide on walnut protein as raw material, using the directional enzyme biological engineering technology of macromolecular protein degradation into have good solubility and emulsification and biological activity of small molecular peptide, improve the functional characteristics of protein, enhance its efficacy, make it more widely used in the ordinary food and functional food.

Description

Walnut peptide is an important substance for repairing brain tissue cell metabolism. It can nourish brain cells, enhance brain function, replenish myocardial cells, purify blood, reduce cholesterol, remove "dirt impurities" in blood vessel walls, and purify blood, thereby providing better health for the human body. fresh blood. For the treatment of non-insulin-dependent diabetes.

Specification

35% oligopeptides

Application

Widely used in Health products, Clinical drugs, Beauty products

Features

Recovering fatigue, strengthen muscles;lower cholesterol level;Improve memory.

Shelf life

2 years

Storage

Keep in a cool, dry, and clean place, Protect from moisture and direct light.

FOR RESEARCH OR FURTHER MANUFACTURING USE ONLY
