Product Name

Cordyceps Mycelium Extract

Product overview

Cordyceps sinensis powder nourishes the lungs and kidney, and tonifies the essence and vital energy. In traditional Chinese medicine, cordyceps sinensis is considered to benefit the lung and kidney channels. It is commonly used by the elder in China as a type of "super-ginseng" for rejuvenation and stamina.

Description

The natural nutrition source of cordyceps sinensis is not wood or other plant, but a pest, which is different from other fungi. Fungi invasive insect body and kill it, finally grow up finger-shaper capsule. It is the unique portfolio of animals and plants in the nature, and its role in a unique feature of the human body, is the treasure traditional in China.

Part used

Mycellium

Specification

Polysaccharide 10% UV

Polysaccharide 20% UV

Polysaccharide 30% UV

Polysaccharide 40% UV

polysaccharide 50% UV

Application

1. Applied in food field.
2. Applied in health product field.
3. Applied in pharmaceutical field.

Features

1. Enhance the human immune function and anti-cancer effect.
2. Antibacterial effect.
3. Good curative effect on pulmonary asthenia cough, acute and chronic bronchitis, asthma, etc.
4. Anti - fatigue, anti - hypoxia, anti - aging effect.
5. Anticonvulsive and sedative effect.
6. It has androgenic effects.
7. Effects on cardiovascular and cerebrovascular systems.
