

Bilberry Extract

Cat. No. PAE-133

Lot. No. (See product label)

Product Name

Bilberry Extract

Description

HS Code : 13021990.99

Odor : Characteristic

Extract solvent : Ethanol & water

Ration/herb/native extract : 10:1

Dry fashion : Spray drying

Particle Size : 95% through 80 meshes

Loss on drying : 5.00%MAX

Total Ash : 3.00MAX

Lead (Pb) : 0.50ppm MAX

Heavy metals : 10ppmMAX

Arsenic (As) : 0.50ppm MAX

Cadmium (Cd) : 0.50ppm MAX

Mercury (Hg) : Negative

Pesticides : USP standard

Solvent residuals :

Molecular formula

$C_{27}H_{31}O_{16}$

CAS number

84082-34-8

Part used

Fresh fruit

Specification

Anthocyanidins 25%

Appearance

Reddish purple Powder

Application

Blueberries are rich in anthocyanin which is Advanced pharmaceutical intermediates, helpful to maintain Capillar.

FOR RESEARCH OR FURTHER MANUFACTURING USE ONLY
